**GEOLOGIC MAP OF THE MONTEREY 30'X 60' QUADRANGLE
AND ADJACENT AREAS, CALIFORNIA**

REGIONAL GEOLOGIC MAP SERIES, 1:100,000 SCALE MAP NO. 1

Compiled by

David L. Wagner, H. Gary Greene, George J. Saucedo and Cynthia L. Pridmore

Digitized by

Sarah E. Watkins, Jason D. Little and Joseph J. Bizzarro

The Geologic Map of the Monterey 30'x 60' Quadrangle and Adjacent Areas, California was compiled from geologic maps covering the Monterey 1:100,000 scale quadrangle, part of the Palo Alto 1:100,000 scale quadrangle, and Monterey Bay between latitudes 36° 30' and 37° 00' north to approximately 122° 20' 00" west longitude. Most of the map was compiled and digitized from existing maps, although some new mapping was conducted and is presented on this map for the first time. There are three plates in this package: a geologic map on a shaded-relief base, which was generated from a digital elevation model (DEM), a geologic map on a topographic base without a DEM, and an explanation of the map units.
